## Disinformation's impact on our lives

### STUDY: A SEA OF DISINFORMATION

Our study explores media literacy among young Slovenians, focusing on their ability to spot disinformation. Findings reveal a high sensitivity to topics like migration and the economy, driven largely by the influence of social media.

### MEDIA LITERACY WORKSHOPS

Our sessions bridge the gap between technical skills and civic duty. We explore AI ethics, privacy, and online rights to transform passive users into active, informed digital citizens.

### INVESTIGATIVE PROJECT: INVISIBLE BATTLES

Invisible Battles explores disinformation through interviews with women targeted by these campaigns. By sharing their stories, we expose the tactics used and advocate for truth, dignity, and equality in public discourse.
